

JARRETT TM SERIES FINISHING PARK MOWERS*

General construction

- RHS chassis fully welded and capped
- Spindle mounting plates from 8mm steel
- Spindle plates mounted between RHS chassis
- A-frame bolted to main deck
- Clean deck design for easy cleaning without removing safety covers
- Safety covers in heavy duty Aluminium tread plate
- Steel deflector plates mounted front and rear

Jarrett spindles

- Jarrett spindles manufactured in Australia
- Sealed oil bath lubrication for minimum maintenance
- Precision machined heavy duty cast iron housings
- Internally mounted oil seals
- Heavy duty 6308 ball bearings
- Precision machined 'Duraflex' 40mm diameter shaft
- Steel deflector plates mounted front and rear
- Tapered spline shaft for pulley and cutter base

Single deck models

- **TM182** 1.8m, 3-spindle Full rollers, front and rear
Min 40hp req Approx weight: 540kg
- **TM232** 2.3m, 3-spindle Full rollers, front and rear
Min 45hp req Approx weight: 650kg
- **TM302** 3.0m, 5-spindle Full rollers, front and rear
Min 50hp req Approx weight: 800kg

Pulleys

- All pulleys are 4-groove, cast iron
- One pulley suits all spindles, reducing stock requirements
- Tapered spline lock mounting to spindle shaft
- Machined deep groove 'B' section belt profile
- Twin belt drive to each spindle
- Large wrap around belt surface contact for superior grip and drive

Cutter heads

- Tapered spline lock mounting to spindle shaft
- Standard 4mm finishing tip blades
- Optional 7mm pasture blades on most models
- Quick and easy to change between blade types
- More flexibility for varying mowing conditions
- High tip speed ensures superior cut

Wing deck models

- **TM372** 3.7m, 5-spindle Full roller, rear main deck
Lge dia, short roller, front main deck
Min 55hp req Approx weight: 950kg
- **TM432** 4.3m, 7-spindle Full roller, rear main deck
Lge dia, short roller, front main deck
Min 60hp req Approx weight: 1,050kg

Idler pulleys

- Large diameter fabricated steel pulley
- Sealed bearings
- Rubber torsion block mounting for constant belt tension

Belts

- Twin 'B' section belts on all models
- Quick and easy to remove and replace belts
- One point tensioning system for the main deck
- Rubber torsion block tensioning system for the wing

Options

- Rear wheels, solid rubber
- Wing rollers, rear or front and rear
- As the manufacturer we are happy to discuss your particular requirements

JARRETT TM SERIES FINISHING PARK MOWERS*

"I have been mowing ovals for 20 years and this is the best roller mower I have ever used." — Les Splatt, Team Leader, Parks & Gardens

Wings up, ready to transport

The Jarrett TM Series finishing park mower continues to impress operators, supervisors and managers around Australia!

"It's strong, well-made and so simple and easy to use — it's easy to clean and it cuts so fine" ... are typical feedback comments we receive every time a TM series mower is introduced to a new user.

The Jarrett TM Series range from a cutting width of 1.8m (6') to 4.3m (14') and, with various blade, roller and wheel options, gives you an extremely effective, efficient and versatile finishing park mower.

Wings down, ready to work

"We were able to cut grass much faster and with less maintenance. We found the Jarrett [mowers] could cope with conditions in which the other brands failed!" — Ray Cheshire, Senior Plant Coordinator

The TM182, the smallest of the Jarrett TM Series mowers, fitted with front and rear full-width rollers.

The TM232, single deck mower, fitted with a large diameter, short front roller and rear, solid rubber wheels.

The TM372, wing deck mower, fitted with a large diameter, short front roller and rear, solid rubber wheels.

Many councils and contractors are operating Jarrett finishing park mowers today and, after years of service, they are now adding even more to their fleet! A sound testament to the quality, reliability and performance of Jarrett mowers.

Options:

- Full width front roller
- Rear wing roller kits
- Solid rubber rear wheel kits
- Pasture slasher blades

Manufactured by Jarrett in Sydney and using all-Australian content has truly raised the standard of finishing parks mowers available to you!
